## SR-1800 Scanner

LIGHTWEIGHT

DOUBLE SIDED

AUTO FEED OPTICAL MARK READER

The Sekonic SR-1800 Optical Mark Reader is the latest design of scanners developed for applications that require the capturing and processing of data from either a single-sided or a double-sided form.

We have many software applications in use that can easily and economically be applied to your particular needs. Remark software is adaptable to work on all Sekonic readers. Your existing OMR software can easily be interfaced to recognize the SR-1800 as it's source.

Quality Built - Lightweight - Reasonably Priced to support the data requirements of many applications such as:

### EDUCATION

- Attendance
- Class Scheduling
- Classroom Testing
- Course & Instructor Surveys
- Entrance Exams
- Student Analysis
- Student Surveys
- Administrative Functions

### MEDICAL

- Clinical Evaluations
- Electronic Medical Records
- Health Risk Analysis
- Medical ROS
- Patient Billing
- Patient Follow-Up
- Wellness Tracking

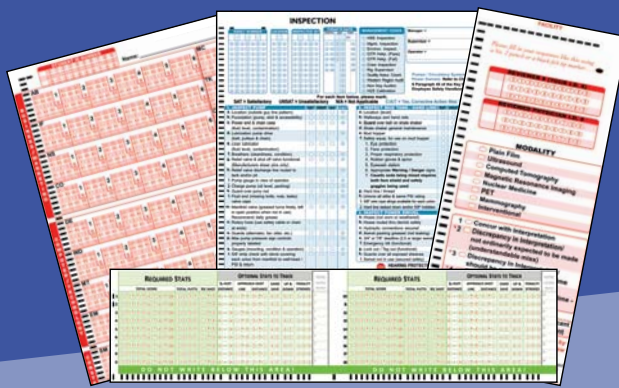

### BUSINESS

- Customer Satisfaction Surveys
- Elections and Ballots
- Employee Surveys
- Food Industry
- Inventory Management
- Payroll Tracking
- Quality Control
- Safety Observation

The Sekonic SR-1800 can interface using either of its USB 2.0 or RS-232C Serial ports.

Significantly faster and more accurate than keyboard entry, the SR-1800 reads both sides of a scan form without error, enhancing work efficiency and reducing input error.

The Sekonic SR-1800 is capable of accepting forms in various sizes ranging from 2.5" to 9" wide x 4.3" to 14" in length, is lightweight (10.8 lbs.) and allows forms to be automatically fed, reading approximately 1800 pages per hour.

## SCANNING

50 Form Capacity Input Tray  
Approximately 30 Forms Per Minute  
A4, Letter, Legal Size  
Software: Markview

## ACCURATE DATA CAPTURING

Detection Mark Density:  
To Capture the Data Correctly  
Double Feed Detection  
Non-Feed Detection

## COMPATIBILITY

Fully Compatible with Previous Sekonic  
OMR Models:  
SR-601 / 607  
(Operated by RS-232C Mode)

SR-2300 / 3500 OMR  
(Operated by USB Mode)

## EASY USB CONNECTION

To Desktop, Notebooks, and Palms  
I/F: USB (2.0) & RS-232C

## MAIN FUNCTIONS

Reading Speed:	Approximately 1,800 Pages / Hour
Input Process:	ADF
Form Input (Input tray):	50 Forms
Form Output:	100 Forms
Read Head Channels:	1/6 Inch (48 Channels)
Mark Writing Implements:	Pencil (Infra Ray) Pen & Pencil (Visible Red Ray; Option)
Read Technique:	Reading Reflective Sensor
Number of Read Heads:	1 (Single Sided) 2 (Dual Sided)
Mark Discrimination:	256 Degrees (16 Steps of Discrimination)
Calibration:	Automatic / Via Maintenance Software
Mark Shapes:	Rectangles, Ovals, and Circles

## CONNECT WITH PC (INTERFACE)

Communication Interface:	USB (2.0) EIA RS-232C Serial (9 Pins)
Baud Rate (RS-232C Mode):	9.600 to 115,200bps

## FORMS

Paper Weight:	20lb. to 100lb.
Form Size:	WIDTH: 2.5 Inches to 9.0 Inches LENGTH: 4.3 Inches to 14 Inches
Maximum Scan Area:	48 Lines x 108 Rows

## OPERATING

Temperature:	5 Degrees to 35 Degrees Celsius 41 Degrees to 95 Degrees Fahrenheit
